GITHUB: <https://github.com/rierjarv>  
TELEPHONE: +358 40 1939 476

## Formal education

M. Sc. (theoretical physics), University of Jyväskylä, 2018.  
B. Sc. (theoretical physics), University of Jyväskylä, 2008.  
Matriculation examination, Kotka lyceum, 2004.

## Professional interests

Software Design and Architecture, Full-Stack Development  
Knowledge management and efficient learning in work life.

## Skills

**Languages.** Finnish as mother tongue. English (fluent written and spoken), German (basic communication skills), Swedish (Basic communication skills).

**Computers.** Good programming and typesetting skills (Java, Bash, Angular,  $\LaTeX$ ; VIM, Eclipse, VS Code, TexnicCenter), Good command of Linux and it's command-line. Touch typing at 400 characters per minute, expert working knowledge of solving computer-related problems.

**Entrepreneurship.** From October 2014 till December 2016, I worked as an entrepreneur (Tieto- ja viestintäteknikkakoulu). My business offered educational services in the field of daily practical computer matters such as cloud services, information security and device usability.

## **Professional experience**

Software Engineer, Magister Solutions Ltd. 3/2018–now.

Teacher of Mathematics and physics at Uurainen comprehensive school, 1/2017–4/2017. I also set up Meraki MDM for Apple iPads in educational use.

Entrepreneur, Tieto- ja viestintätekniikkakoulu, 8/2014–12/2016. I did teaching (Using mobile devices and Cloud services), lectures (YTL Digabi & Touch Typing) and prepared a BASH program to create optimal touch typing exercises.

Full-time teacher at Ruokolahti comprehensive school, 8/2013–7/2014. I also did administration of iPads with Meraki MDM and secure deletion of data from hard drives with DBAN.

Part-time instructor at University of Jyväskylä physics student lab, 6/2007–12/2008 and 6/2011–5/2012, 200 hours of teaching.

Full-time Teacher at Virolahti and Miehikkälä schools, 8/2010–7/2011. I also created a customized Windows 7 images and cloned them on 100+ machines using Microsoft's WAIK.

Teacher of medical physics at Alkio-opisto, Korpilahti, autumns 2008 and 2009, 150 hours of teaching.

Teaching assistant for introductory Physics courses FYSP101 and FYSP102 (Newtonian mechanics), University of Jyväskylä, autumn 2008. 42 hours of teaching.

## **Other education**

A total of 503 ECTS (University of Jyväskylä, 2018).

Digabi (YTL) Trainer, 2014.

Participated in GTD® Mastering Workflow Seminar Dublin, 2014.

Minor studies in computer science, 2013, grade 5/5.

Exchange student, Johannes Kepler Universität Linz, 2012.

Major studies in mathematics, 2008, grade 4/5.

Teacher's pedagogical studies, 2007.

Exchange student, University of Toronto, 2006.

Tutor for new Physics Students, University of Jyväskylä, 2005.

## **Personal interests**

Human movement for well-being & science behind these things.

Pet Biewer-Yorkshire terrier, Miko
